What we do?

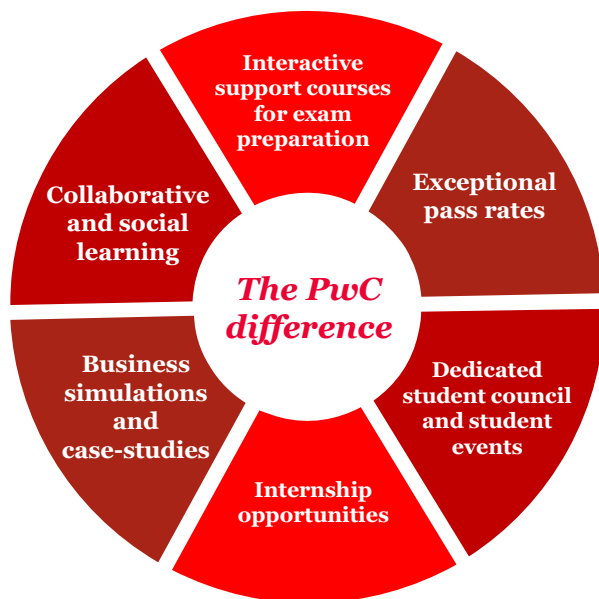

PwC's Academy is the learning and education business of PwC. We are committed to supporting the sustainable growth of talent across the region. We operate across the Middle East and are part of a growing network of PwC Academies present in over 40 countries worldwide.

At PwC, we have been developing our own people for over 100 years and our ability to recruit, retain and grow talent has made us one of the largest and most successful professional services firms in the world.

It is this deep experience of developing young professionals right through to successful business leaders that is built into all PwC's Academy programmes. We offer a variety of finance training courses which are designed to ensure that participants pass their exams and are ready for the workplace.

Why we do it?

We believe in the development of talent through building on what people know, how they think and what they can do. We understand that life after school can be a challenge with so many different routes to choose from. At PwC's Academy we try and make it a little bit easier by helping students choose a financial professional qualification that meets their career goals. We constantly adapt our courses to meet the needs of modern business. Building capabilities today leads to better performance tomorrow.
