About PwC's Academy

Leading change through the development of human capital

We work with students and educational institutes across the region to develop the next generation of professionals.

We help them grow and develop their talent by providing training programmes that build mindset knowledge and skills.

Who we are

We are the learning and education business of PwC operating across the Middle East, and are a part of a growing network of PwC Academies present in over 35 countries worldwide. We have been developing our own people for over 100 years and it is this deep experience of helping professionals become business leaders that is embedded into all PwC's Academy programmes. We are different because we use both subject matter experts within the PwC network and dedicated Academy staff, each of whom bring their wealth of knowledge and practical experience.

What we do

We offer a variety of training courses, based on the best practices of PwC's global network of firms and the individual experiences of our experts. We constantly adapt our courses to meet the needs of modern businesses, customising them to our students requirements and assisting our students in reaching their organisational training and strategic objectives. We deliver learning that blends classroom training with innovative tools including the latest educational technologies, so that learning is relevant, sustainable and fun.

How we do it

We believe in the development of talent through building on what people know, how they think and what they can do – not as separate components but as an integrated process to create impact and deliver change. We design our programmes to deliver the knowledge, mindset and skills needed to solve today's important problems and predict, prevent and manage tomorrow's.
